CONGRESSIONAL & INTERGOVERNMENTAL

House & Senate: The House and Senate stand in recess this week and will return to session next week on Monday, June 4, 2018.

Rep. Doug LaMalfa (R-CA-1): Brent Maier shared some follow up information provided by our Water Division with Brenda Haynes, District Representative in the Redding District Office of Congressman Doug LaMalfa in response to her inquiry regarding a local irrigation district serving Shasta and Tehama County and their interest in applying for WIFIA funding to address the irrigation district's need for funding for improvements to the pumps and fish screens. Without these improvements, it's just a matter of short time until the facility fails, no more water is pumped and all those domestic water wells go dry. Brent let Brenda know that our Water Division's review of the irrigation district and WIFIA is that they are an eligible entity to apply for WIFIA funds. They believe that the project is eligible under the selection criteria number 2. "Repair, rehabilitate, and replace aging infrastructure and conveyance systems". They also recommended that the Irrigation District reach out directly to EPA HQ Office of Water contacts (Karen Fligger and Arielle Gerstein whose contact information was provided) and whose responsibilities include the WIFIA program and to ask more specific questions for their particular situation and to ask about WIFIA's scoring process especially under the project impact category. Brent also let Brenda know that our Water Division recommends that the Irrigation District talk with the State Water Board about State Revolving Fund (SRF) and possible other state funding options and provided contact information for Christopher Stevens and a link to the State Water Board's Division of Financial Assistance: https://www.waterboards.ca.gov/water_issues/programs/grants_loans/
